Our request was a simple one and the last thing we were anticipating was for Emil to go from Emil normal to being unraveled as his harmonic frequency modulation seemed to phase him in-between the magnetic barrier that separates us from the multiverse.

Our Whiz Kid Marketing Team has always complained of their difficulty in dealing with someone that they dismissed as an odd old man lost in reliving his lost beatnik days but,

As these pages filter and parade by for your returned salute; you are about to see what we believe to be a direct side effect to the Plague's Killer Lockdown(s) and it does seem that Emil has (sadly) become the poster child for what appears to be an ever increasing mental collapsing spiral down into the this new venue of Emil as an incidental deepest, the darkest rabbit holes of Emil's lost
